

**Quotation:**

We will be happy to quote on a custom synthesis after we have obtained the necessary information from you. In preparing a quotation we take into account the amount of effort required to develop a reliable synthesis procedure, so the information you can supply is to your advantage. Use a copy of the following form to request a quotation.

NAME: \_\_\_\_\_

COMPANY: \_\_\_\_\_

ADDRESS: \_\_\_\_\_

CITY, STATE &amp; ZIP: \_\_\_\_\_

COUNTRY: \_\_\_\_\_

TELEPHONE: AREA CODE: \_\_\_\_\_ NUMBER: \_\_\_\_\_

FAX: AREA CODE: \_\_\_\_\_ NUMBER: \_\_\_\_\_

POLYMER NAME: \_\_\_\_\_

SYNTHESIS REFERENCES: (Send copy if available): \_\_\_\_\_

SOURCE OF MONOMER (If known): \_\_\_\_\_

AMOUNT OF POLYMER REQUIRED: \_\_\_\_\_

SPECIFICATIONS (Molecular weight range, physical form, purity, composition, etc): \_\_\_\_\_

NOTE: Keep in mind that the greater the number and the more restrictive the specifications, the higher the cost.

In the event that a procedure for the synthesis of the desired material is unknown, we suggest a research contract to develop a procedure. Under a research contract all materials fabricated and procedures developed are the sole property of the purchaser including patent rights. Customs are billed on a per hour basis plus the cost of materials. A research proposal will be submitted and a maximum expenditure established with a purchase order.
